Response to Amendment

1. This action is responsive to the amendment filed on July 26, 2005. Claims 1, 9, and 17 are amended. Claims 1, 3-9, 11-17 and 19-24 are pending. Claims 2, 10, and 18 are cancelled.

2. Claims 1 and 3-8 are allowable.

Claim Rejections - 35 USC § 101

3. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claim 9 is rejected under 35 U.S.C. 101 because it is not tangibly embodied.

Claim 9 is not limited to tangible embodiments. In view of Applicant's disclosure, specification page 5 line 10-12, the medium is not limited to tangible embodiments, instead being defined as including both tangible embodiments (e.g., computer-readable storage medium) and intangible embodiments (e.g., computer instructions signals...with or without a carrier wave). As such, the claim is not limited to statutory subject matter and is therefore non-statutory.

4. Claim 17 is also rejected under 35 U.S.C. 101 because it is not tangibly embodied. The claim in the preamble recites an "apparatus" however, no support for the preamble is found in the body of the claim. The body of the claim recites software modules rather than hardware.

5. Claims 11-16 and 19-24 are also rejected under 35 U.S.C. 101 due to their dependency upon claims 9 and 17 respectively.
